**7. Brief Project Description:**

In line with its vision 2020, the Economic Community of West African States (ECOWAS) is implementing a Volunteers Programme that cuts across all areas/sectors of activities of the ECOWAS Commission and its sister Institutions.

ECOWAS Volunteers are a group of volunteer men and women (18 to 35 years old) from ECOWAS member States, with the capacity to adapt to different social, cultural and political circumstances. They are deployed in selected community-based associations, national and international non-governmental organisations (NGOs), and specialised agencies that are active in socio-economic, cultural, political, and humanitarian work. The volunteers will help consolidate peace, recovery, national reconciliation and rehabilitation in crisis-affected communities. Members of the volunteer corps also work to strengthen the capacities of local organisations by assisting them in the development and implementation of projects and programmes. This initiative complements existing programmes for Peace Building and national volunteers' programmes in ECOWAS Member States. It helps to address the structural causes of vulnerability, instability or outbreaks of violence in the region.

The ECOWAS Volunteers Programme (EVP) is centralized in organisation, but decentralized in its application to allow for flexibility and adaptation to the current realities of each country. The strategic directions, including the formulation of the overall vision, goals and objectives of the Programme, is the responsibility of the Regional Coordination Council (RCC), whose role, among others, is to ensure that the EVP becomes a genuine voluntary arm of ECOWAS.

Being a cross-cutting programme, the ECOWAS Volunteers Regional Coordination Council (RCC) includes representatives of relevant departments of the ECOWAS Commission. The RCC is chaired by the

Commissioner for Social Affairs and Gender of the ECOWAS Commission. She is assisted by the Director of the ECOWAS Youth and Sports Development Centre (EYSDC), as Secretary to the RCC.

The executive arm of the RCC is the Regional Office, provided by the EYSDC in Ouagadougou (Burkina Faso). The programme's regional coordination activities are coordinated by a Regional Coordinator under the supervision of the EYSDC Director. Although the EVP is under the Youth Division of the EYSDC, it is directly supervised by the EYSDC Director for effectiveness.

At the National level, the National Coordination Council (NCC) serves as the national body through which national policy guidelines for the Programme are given. This Council works towards the understanding and entrenchment of the Volunteer Programme in the national environment. It also serves as advisor to the country office, headed by the Country Coordinator, and which is responsible for the implementation and coordination of the Programme at national level. The NCC is chaired by the Head of the ECOWAS National Office in the country. It is made up of Focal Points/Representatives of the various ministries, Civil Society Organisations, United Nations Agencies and local youth associations involved in the implementation of the Programme at the National level.
