V. OUTCOME OF DELIBERATIONS

Item 2: Presentation and Consideration of the Report of the Executive Secretary

9. The Executive Secretary presented his 1996/1997 interim report. The report stated that, since the last summit of the Heads of State and Government held in Abuja in July 1996, encouraging developments had taken place in West Africa. Most Member States had consolidated the monetary reform process, liberalised the financial sector and continued with the restructuring and privatisation of public enterprises in a bid to

improve their performance and to achieve a balanced budget. The report stated, however, that ECOWAS Member States continue to suffer the effects of serious structural weaknesses such as the non-diversification of their economies and the inadequacy of basic infrastructures and human resources. The report highlighted a number of formidable challenges that need to be overcome such as the heavy indebtedness of West African economies. It expressed satisfaction with the facility aimed at reducing the multilateral debt of heavily indebted developing countries.

10. The report stressed that there was a need for Member States to strengthen the regional integration process as a way of improving the economies of the sub-region.

11. In the chapter on the functioning of the Community, the Executive Secretary briefly summarised the status of the Community work programme and stressed the importance of the co-operation activities scheduled to be undertaken jointly by ECOWAS and the Bretton Woods Institutions to ensure effective implementation of Community programmes. He also underscored the importance of the harmonisation of economic and financial policies and commercial laws within ECOWAS, the regional development programme, the trade liberalisation scheme, the Community levy and the protocol establishing value-added tax. He then highlighted on-going efforts to find a lasting solution to the Liberian crisis.

12. Concerning the 1997 Community work programme, the Executive Secretary pointed out that most of the scheduled activities were geared towards the continuation of the 1996 programmes activities which were planned over a number of years. He referred in

particular to the harmonisation of economic and financial policies and commercial laws, the regional development programme and the co-operation programmes designed to broaden the production base, protect the environment and ensure the establishment of physical infrastructures such as transport and communications which are crucial to the realisation of regional integration.

13. Concluding his report, the Executive Secretary stressed the need for Member States to make integration the central focus of their programmes. To this end, he invited Member States to show convincing proof of their political commitment to regional integration by honouring their obligations to ECOWAS.

14. Council commended the Executive Secretary for the quality of his report. After discussing the issues raised, Council took note of the report and made the following observations and recommendations:

- i) With regard to the formulation of the regional development programme, Council requested the Executive Secretariat to recruit the best local consultants, preferably citizens of the sub-region, to conduct the study.
- ii) Council took note of the information that donors, especially the World Bank insisted that Member States should first honour their commitments to ECOWAS before the Community would receive any significant assistance from them. Council therefore urged Member States to honour their obligations and directed the Executive Secretariat to play a more active role in the co-

ordination of the programming of the regional fund of the 8th EDF.

- iii) Council took note of the progress made by private economic operators regarding the proposed establishment of an airline and a regional coastal shipping company. The private sector was to be encouraged to intensify its efforts.
- iv) Council directed the Executive Secretariat to involve private economic operators from the sub-region in the quest for pragmatic modalities for effective implementation of the trade liberalisation scheme in all ECOWAS Member States.
- v) Council requested the Executive Secretariat to ensure that the meeting of Ministers responsible for security is well prepared. All issues relating to free movement of Community citizens should be included on the agenda.
- vi) Council reiterated the need for the Executive Secretary and the Managing Director of the ECOWAS Fund to undertake joint missions to Member States to recover arrears of contributions.
- vii) In order to ensure its extension to cover the entire Community, Council urged the Executive Secretariat to participate in the language exchange programme initiated by UNESCO, France and some ECOWAS Member States.

Item 3: Report of the Meeting of the Board of Directors of the ECOWAS Fund

15. The Chairman of the Board of Directors presented the report of the thirty-sixth session of the Board.

16. Following discussions, Council took note of the report of the meeting of the Board of Directors, including the relevant observations and recommendations, particularly with regard to:

- missions for the recovery of outstanding contributions;
- the 1997 budget and work programme of the ECOWAS Fund and the Special Fund for Telecommunications;
- the request for authorisation for the partial financing of the DAOUKRO local agricultural development project in Côte d'Ivoire;
- the rescheduling of Liberia's outstanding repayments in respect of loans.

Item 4: Consideration of the Report of the Ad Hoc Ministerial Committee on the Enhancement of the Financial Resources of the Fund

17. The Chairman of the Ad Hoc Ministerial Committee on the Enhancement of the Financial Resources of the Fund presented the Committee's report on the conclusions and recommendations of the Fund restructuring study conducted by MAXWELL STAMP PLC which centred on the institutional, organisational, operational, accounting and financial audit exercise.

18. Having discussed the issue, the Council of Ministers expressed concern on a number of issues, particularly:

- the need to justify the request for approval to transform the Fund into a regional development bank or a regional investment bank and the expected results.
- the method used in determining the number of the members of the Board of Directors and their apportionment among the various partners;
- the minimum level of capital required and its apportionment among regional and non-regional members.

19. The Council of Ministers requested the Ad Hoc Ministerial Committee on the Enhancement of the Financial Resources of the Fund to examine these issues taking into consideration the ROC's study on the Enhancement of the Financial Resources of the Fund. The Committee was called upon to highlight the advantages and disadvantages of each option, bearing in mind the need for the future institution to finance development at concessionary rates.

20. The outcome of the Committee's deliberations will be examined at the next session of the Council of Ministers before being submitted to the Authority.

21. Council authorised the management of the Fund to pay the balance of fees due to MAXWELL STAMP.

Fund headquarters completion works for a total contract sum of FCFA 687 000 000;

- with the Architect, an additional contract to the latter's initial contract for a fee of 10% of the cost of works;
- with the Project Management consultant, an additional contract to the latter's initial contract for a fee of 2.28% of the cost of works;
- with the Control bureau, an additional contract to the latter's initial contract for a fee of 1.15% of the cost of works.

26. Council took note of the provisions of Decision A/DEC.1/7/96 of the Authority of Heads of State and Government which stipulates that "the completion of the building shall be financed through the payment of arrears of contribution to the construction of the Headquarters of ECOWAS Fund".

27. Council also took note of the information to the effect that only an amount of FCFA 234 544 000 or UA 313 942 representing the payment made on 20 June 1996 by Ghana in respect of her arrears is available for the financing of the project, the provisional cost of which was estimated at FCFA 826 017 737. However, Council requested the management of the Fund to embark without delay on the procedure for commencing the completion work on the Fund building. In this regard, Member States were invited to honour their financial obligations to this Community institution.

Item 6: Consideration of the Reports of the Technical Commissions

i) Trade, Customs, Immigration, Money and Payments Commission

28. The report of the 37th meeting of the Commission focused mainly on the following issues:

industrial products approved in 1996 under the ECOWAS trade liberalisation scheme.

31. Furthermore, Council adopted the following recommendations:

- a) Member States should transmit actual data on intra-ECOWAS trade to the Executive Secretariat.
- b) Paid-up contributions to the compensation fund should not be refunded, and arrears should remain outstanding. Member States should make every effort to ensure the effective implementation of the protocol establishing the Community levy as from 1 January, 1997 as a means of resolving the problems relating to contributions to the compensation budget.
- c) Member States should transmit to the Executive Secretariat by 31 March, 1997, all documents and texts proving that all necessary measures have been taken to implement the liberalisation scheme.
- d) Council directed the Executive Secretariat:

at UA 5 845 400, lower than the 1996 budget by 1.9%. Council decided to include an income appropriation of UA 300 000 in the 1997 budget, to be drawn from amounts recovered as arrears of contributions.

36. Council approved a budget of UA 414 500 for the Community Computer Centre for 1997.

37. With reference to the recent incident in the Executive Secretariat between a Gambian senior officer and some ECOWAS security guards, the Gambian delegation felt that this was entirely an internal administrative matter. The executive officers at the Secretariat should therefore take adequate measures to resolve the issue speedily. The Executive Secretary promised to find a fair solution to the problem.

Item 7: Consideration of the Memorandum on the Statement of Financial Contributions

38. This memorandum set out the amount of arrears owed by Member States to the budgets of the Executive Secretariat. Council expressed concern on the high level of arrears which amounted to US \$46 618 134 or FCFA 22 170 648 800 as at 20 November 1996.

Item 8: Consideration of the memorandum on the table of ratification of Protocols and Conventions

42. Council took note of the table of ratification of protocols and conventions and appealed to Member States to ratify all Community acts signed by them without delay.

ECOWAS CULTURAL DEVELOPMENT PROGRAMME

I. INTRODUCTION

Culture can facilitate the integration process in the following ways:

- By building up the awareness and conviction that integration is one of the most credible means of achieving an economic break-through in West Africa;
- By disseminating key ideas such as: solidarity, unity, progress, strength through collaborative effort, through books, skits, magazine articles and teaching;
- By developing cultural tourism for the youths, school children and university students, the working population and the elderly;
- By promoting and initiating Community activities.
- By organising colloquia, seminars and conferences on ways of speeding up the integration process, encouraging public participation, involving the private sector, publicising the specific goals and objectives of the process, and the results achieved.

Obstacles to Cooperation for Development, Solidarity and concerted Action

The most frequently quoted obstacles to be eliminated are discriminations on the grounds of ethnicity, regionalism, sex, age, philosophical and religious belief, language and loss of cultural roots.

Opening up Mental Horizons

Integration for development implies a far-reaching change in thought patterns as a means of reforming economic and social structures and adjusting more effectively to the influences of the outside world in order to be able to respond to the needs of our peoples. This would be facilitated through:

- extending the scope of culture through education and by dissemination;
- introducing cultural programmes in training institutions, schools of journalism and administration, etc.
